

No Mouthguard No Contact Policy

The City Beach Water Polo Club recognises the inherent risk of head trauma, including dental injury.

The City Beach Water Polo Club:

- Requires all players to wear a protective mouthguard when participating in activities that involve the potential for contact.
- Requires all coaches to implement the policy during Club training sessions
- Requires all umpires to implement the policy during intra-Club games
- Provides for exceptions to the policy by all Flippaball players and those that have voluntarily opted-out of the Policy at the time of registration. Junior players will require permission from their parent or guardian to opt-out of the policy.
- Committee will maintain the policy as a standing Agenda item.

This policy was adopted on 19 March 2015 and will be enacted on 1 October 2015.
